

Stallion communication solutions

**MAINTAINING
COMMUNICATION &
CONNECTIVITY**

Whether your jobsite is isolated or your team is spread out, Stallion brings you solutions that keep your operation connected. Stallion delivers the big services that your job demands along with the small tools that pay off big. With over 20 years of experience delivering turnkey infrastructure solutions, Stallion provides security, connection, and comfort because Stallion is more.

LTE Connectivity

Stallion's LTE Connectivity solutions are compatible with all service providers and designed for mission-critical reliability in rugged and remote environments.

- Multi-carrier solutions that enable failover for business continuity
- Supports all LTE and 5G frequencies
- 24/7 support and NOC monitoring

Options:

LTE in a Box, LTE Connectivity System, Point-to-Point

Satellite Connectivity

Even in the remotest locations, Stallion's Satellite Connectivity gives you and your team the connection necessary to get the job done.

- Covering 500 remote sites across the U.S.
- High-availability iDirect network
- Low latency connectivity

Options:

VSAT Satellite Connectivity, OneWeb, Starlink

Cellular Amplification

Whether a complex job, a remote site, or both, Stallion brings faster and higher-quality cell service that contributes to the success of your team.

- Scalable for small businesses to enterprise organizations
- Streamlined single-vendor experience
- Compatible with portable power solutions for uninterrupted coverage

Options:

Bi-Directional Amplifier (BDA), Distributed Antenna System (DAS), Cellular Spot Boosters
